

Is your surname EAVES?

Do you know who your EAVES ancestors are?

A simple saliva swab can help find your EAVES lineage.

We invite an EAVES male in your family to join our

Very unique EAVES yDNA project.

Our project is handled by FamilyTreeDNA Company.

We already have 80 members in our project

And have isolated 4 different Eaves lineages,

All using the surname, EAVES.

Which one do you belong to?

To order a kit, call FamilyTreeDNA (713) 868-1438

And ask to purchase a 37-marker yDNA kit.

Be sure to tell them that you are ordering through the

EAVES Project (that will bring you a discount).

Your charge will be \$149.00 + shipping and handling.

There may be additional discounts during June and December sales.

Also, there may be another discount provided by the

Eaves Family National Association if your family tree has never before been tested.

If you have further questions contact Eaves DNA administrators:
